Bluetooth™ USB Adapter

Up to 100 metres wireless connectivity

Bluetooth™ wireless technology to your desktop or notebook computer

The Swann Bluetooth™ Adapter is a quick and easy solution for users wanting to add Bluetooth™ capability to their desktop or notebook. It plugs directly into your USB port on your computer and enables wireless connectivity with Bluetooth™ devices including mobile phones, PDAs, printers and other computers. Another benefit of Bluetooth™ wireless technology is the ability to connect your notebook to the internet via a Bluetooth™ enabled mobile phone (GSM, GPRS or CDMA) or Bluetooth™ LAN access point.

- Enable Bluetooth™ connectivity on a notebook or desktop PC
- Installs easily with Plug-and-Play convenience
- Bluetooth™ for Windows connectivity software
- Allows you to work at distances of up to 100 metres*
- Internal embedded antenna
- Supports Windows 2000/XP
- 1-Year Warranty with Free Technical Support

System Requirements

- One available USB Port 1.1
- Windows® 98 SE, Me, 2000, or XP

Package Includes

- Bluetooth™ USB Adapter
- CD-ROM
- Quick Start Installation Guide

* Disclaimer: Performance may vary due to the environmental factors.
